Why NOTCH WHYYYYYYY

Yeap, thats the way he rolls, so I must roll the same way.

The server has just been updated to 1.7.2 with latest (unstable as usual) Bukkit

So join in and have fun!

UPDATE

Server is still VERY unstable due to something with pistons, there should me more updates to come on 1.7, until then, bear with us if the server just kicks everyone out and does allow anyone in.

Bukkit requires too some updates, but their site is off atm, I will (when time allows) create a mirror for them.
