

Hello :) A quick update for all you CS Source, WCS and GunGame players out there.

You may have noticed that as of sometime in the evening tonight (23/06/10) all of the TWKGaming servers went down due to the Counter Strike: Source update that Valve released.

First Thing: DON'T PANIC!

Normal service will be resumed as soon as the update gets down the tubes to the server. TWK server admins will be working around the clock until the problem is resolved.

More information about our server status will be posted as it is available.

That is all.
