

## Map?

Posted by Mr. White - 09 Apr 2011 13:01

---

just want to see if anyone wants me to make an awp map for the wcs server

wont be spending alot of time on it just some free time but should only take me like 5 mins to make :p

up to you guys though

The best is go to steam library then in tools find Source SDK, and dl+install it. Then just run it choose

---

Engine version: Source Engine 2009 and game css ofc, and last double click on the Hammer editor text and it will open up a program which you use to make maps 🤖
