

Map Ideas!!

Posted by VooDoo - 13 Apr 2011 16:31

Currently im making a lot of maps, im making one at the moment for this clan, it will be called "TWK Residential" or "TWK InDaHud" because it is a gangsta town with a motorway running over the top (with cars that drive up/down it (you cant get on the motorway, just so you know. 🙄

once this map finished I want to start a new one and want some ideas of what to make, now my thinking is a game map... can you think of any games or something that could make a map out of part of? (if ive never played the game then ill just have to play it to see what im designing the map on 🙄

Voodoo,

If you got the time,

you should make "the Favela" map, from Modern warfare 2,

would be pretty nice to play it ^^
