🤔
The server started lagging really bad and he started saying he would hack the server and random crap. He then said i'm gonna stop the lag since it is annoying for me 🤔 to and the lag seemed to stop 🤔
I don't know what he was doing but he was definitely doing something
obviously it's your choice since your the admins xD.

Yea last time there was a guy on the server who also threatend to hack the server and such. Colin was there to. I think he's name was John. if i'm correct. Ofcourse big mouthed people who wanne act tuff.

I think a warning/kick should be given and if he keeps up sure why not ban him ...

Indeed but didn't tunes say it's a week ban to perm ban for anyone even joking about doing something serious like that?

we were discussing it in a thread. While if u are SURE its a serious threat (as in, its someone actually who can hack) its perm ban, we have to remember a lot of kids play. And children have a big mouth on the internet but "warning"; ban of a week should be enough to spook them.
