

A map edit I made for entertainment

Posted by VooDoo - 26 Apr 2011 19:30

Well, as the map "anticamper" is played an AWFUL lot on the server, its gotten quite boring, so I decided to re-textureize it and give it a new look...

I CALL IT "AntiCamper_Dust_Retex", you can view it here:

im hoping that it could be uploaded to the server along with my other map 😊, but no rush...
