Hi all,

First time poster here as im new to the forums, but a big player on the TWK servers. Thought I would give you guys the heads up that the TWK servers are currently dormant as noone can connect due to the new steam update.

Would be great to get them running on the same version asap, im particular the wcs server im eager to get back on a gaming session seeing as its my one day off a week! 😊

Take care all, hope to have a blast with you all again soon.

Scathe

When someone with access / knowledge is able to run the necessary commands.

Sorry for the long delay usually wouldn't take so long be Tunes and I don't know what where doing with that side of the community
