

## I am worried about the server.

Ehm well, today i have played from like 11am - 4pm and the most amount of players we have had was about 8, and was thinking why there was so little players... the server used to have like 16 players constantly (except night time) and i cant think of why people are not joining much anymore..

I cant think of many reasons but the reasons it could possibly be are:

### Overpowered races

As the regulars on the server are becoming high level (most regulars are level 1000+ now), the races that they are using are getting more and more powerfull and alot of the skills are too strong for newbies to even get a chance of killing them.

### Long Download

Now, im not sure how long the download to get on the server is anymore but TWK use Custom maps, Custom skins, WCSmod with extra races and more. this could "POSSIBLY" make the download to get on the server take a while.

Now, im not saying that there is any problems but I think it would be nice to get more new people into TWK's servers, not sure how we can do this but im sure there is a way, wether it is advertisement, inviting your friends or other things but the server definately seems more empty lately.

Thanks

If you want, you can always post the races that you think are OP. Will check them out and maybe reduce possibility to happen or adjust something.

honestly that part people dont really care about and im with those people, not trying to flame him or anything 😊  
...

btw he also said that he left coz of the recent updates about new races being added that he didnt like

and i know its scary but i do have to agree with him, there's been some new races that are just to stupid for a server like this (i know i need to make a post about it i was heavily under the effects of cba and well i've been gone for 1,5 week so yah 😊)
