

Race Abuse..

Posted by masteraviv13 - 04 Jul 2011 08:20

Well,

i was wondering if the race unholy entity could be restricted on maps like the crackhouse...
because i recently played a game in this map, where a player (terrorist) bought a grenade,
went to sit down on a explosive barrel, use ultimate (switch places) and threw the grenade,
which causes a explosion from the barrel (-40_-50hp) + explosion from the grenade (-50_-80hp)
then you have only a small chance to survive, and he used it every round, with consequence, i couldn't
do anything,

i hope admins will look at this,

something similar to this happened to me. on that snow scoutsknives map, someone with unholy entity
would crouch under the stairs in his base and switch places and unless you were crouching down too
when you witched you would get stuck in the stairs, and then he would come back and easily kill me. :

@Substick,

i did but it didn't work...

@Nez,

Aight he did that to me 2 .. i got stuck in the ventilation near the bombspot on crackhouse

greetz

Yeah I have made a post in the wcs errors topic about the necklace of immunity not working on most of the ultimates out there now.

Not alot you can do about it at the minute until that gets fixed really...

ill admit ive done that in the past because its hilarious 😂
, but doing the barrel and bugging in stairs every round is def abusing, hope it gets fixed 😊

The barrel thing isnt abusing its just smart, pretty funny tbh. However, making someone glitch is abuse, make sure you let anyone who does that know or they will be feeling my ban stick 😊
