greetz Noobgameon 😊

when you say lots of damage that kind of concerns me what kind of damage are we talking about?
because it says **lots** it kind of freaks me out on the amount of damage it will do 🤔

anyhow i like jay ninja and deagle master they seem pretty cool 😊

As for the Aura man i think that race would be way way to overpowered to me so im not to keen on that

deadly demon is okay if i'd know the damage it does where you described it as **lots**
