Does anybody have some inspiration/ideas for wcs RACES?

Here's an idea 🤔

Frog (4 skills, each skill 6 levels)

light weight.

You are light and fast. (speed + gravity)

Froggy legs.

your legs are well trained and you jump for long distances. (longjump)

Your small and annoying

your hard to hit because your small and tricky (Evade)

Long tongue.

You eat bugs easily and you become healthy. (its the ultimate, each level adds 10 hp to the skill up to 60 hp it will take 30 seconds to regenerate)

hope its a good one 🐸

Now that sounds like a good race! Simple, yet brilliant!

Not the same as the first or second, but still worth a watch. 😊
