

When I join the wcs server

Posted by deN - 15 Jul 2011 23:29

I have to dl the materials that are needed i guess, not just once, but every time i join the server, and its getting kinda annoying to wait all the damn time to play.

If you guys have any suggestions/solutions to my problem, its very much appreciated : >

thx in advance!

That's odd cause normally you join you dl the needed files but then their on your pc so nextime you don't have to dl them. So it's weird that you have to. Should check if possible some of the files when you dl them and check them later again. Are they gone or are they just overwritting themselves.

But atm I have no solution, sorry. I'm sure maybe someone else does 😊
