

## deathmatch CSS server down again (bloody steam)

Posted by Shootme - 07 Nov 2011 23:54

---

WTF steam update has broken deathmatch CSS server again

what are they doing

error is that we cannot connect saying that the server is running an older version

any idea when you guys are going to update the server to the latest version

pain in the arse steam updates

=====

steam...the epitome of stupidity 😞

they suck so hard, everything they have changed, doesnt work any longer or it loks pretty bad and..sucks 😞

I CHOOSE POOKY

valve chooses css update

css update uses patch

it was not very effective

Pooky uses rage

It was super effective

Pooky wins
