This seems to be an issue with the server itself or our hosts - I have put in a ticket - hopefully will be resolved very soon.

And my computer crashed today... can't even get into login screen. I'm on my laptop now. Kinda sucks to lose a computer during my exams

fix it then 🤔

Server went up since Friday, 6th by 21h, it was powered off and I got no errors on it... so, at least now its up, I hope.

Kudos
