

CSS4 - Warcraft: Source #2 Now Open

Posted by reacT - 13 Apr 2012 20:51

Guess what guys! WCS2 has now been officially released:

connect 81.19.209.200:27060

Nowlets get it populated!

Well the first problem we had was that textures were disappearing and causing people to crash hl2.exe, now I believed this was due to Night Elf Trueshot FX, as when i removed this the crashing stopped (correct me if i'm wrong). Now it's just a question of "editing on the move" fixing bugs if and when they appear and tweaking everything to be more balanced 😊
