if you think someone is hacking, record a demo and post a Hacker report (thats for the heads up anyway);

Just post the demo in the forums preferably
also you should be able to add them to sourcebans shootme since you are admin

Yo

lost access to sourcebans ??? not sure why....BUT

I dont really ban people unless 100%, and of course did not have time too record this time as just came
on and noticed he was strange so was watching, then asked if haxing, and he went

also what "demo" do you require, is it just the command record name in console if so...cool,
ill prob setup a key

Cheers

ye just type 'record name' in console
then type 'stop' when you want to stop it.
post it on the forums after that and we shall have a look.

On the sourcebans side I don't know, I'll talk to Colin at some point 😬
