| Mornin fellows,   |
| I reached the race Zeus a few days ago and recognized, that the ultimate is bugged.                               |
| Maxed it, but after the activation, there are only some blue waves coming, which have no effect on other players. |
| So, liquid told me to post it here, do u guys already know about that?  |
