"Race Bank"
Posted by Chifilly - 18 Jul 2011 19:56

_____

This is something i've been working on all day, and it's now at a point at which it can be used, so I thought i'd share it with you all.

I made a webpage that will list all the races on the WCS server (when i've eventually populated it all), and will allow you to sort the list with different variables, and also search for a race (not implemented yet). Also, when you click on the name of a race it takes you to a new page with all the race information.

So, here's the link and let me know what you guys think, and any suggestions.

_____

gimp everything with you sounds dirty 😝

anyway nice work chif 😊

P.S i think this should be moved to the main section of CSS
