That Definitely should happen. Maybe just before the map is going to change, change race and it might keep them 🤔  
this is just a temporary solution 🤔  
I'm sure someone will fix it soon

Oh yeah 1 more thing, as soon as i unlocked silver it was 67 already so i asked colin to reset me and so he did, maybe that is the root of the problem?<sup>l</sup>•

Yeah, I was there when i seen this happen. It did seem like it was after you reset the levels so it might be that, but it was your idea to reset lol. Still got the level 100 though?
