Noticed some races that have skills that dont work as i SLOWLY level through all of you races (the xp is too little per kill, i must say D:)

Jareth - the ultimate doesnt work

Die Xonvert - the extra hp doesnt work. The freeze doesnt work (as far as i can tell, might just of not happened for me because the chance is too low)

Panorama - The wall climb skill, on level 2 you can climb higher objects then on level 3? E.g. anticamper map, on level 2 you can walk up the glass walls, when its level 3 you cant. Not sure about level 4 because i got bored of the race and unlocked a new one i wanted to try 🤔

I will keep you updated if i noticed anything else 🤔

Now now stay nice, not many people can do anything about this anyway and even if they can they probably wouldn't because its fine, some of the races are broken because people don't have time to fix them yet 🙄
and also the xp is fine 🙄
I leveled up fast with it and i barely got any kills so it isn't bad 🙄

the guys that do the races etc , are very busy so we just have to be patient people 🙄

Well, I must say, everyone else had to work hard for their levels.. and they lived with the 40-80 xp, also the higher levels you kill you get more xp.. which means you have it easier than when we used to play, as there weren't that many high levels.
