Noticed some races that have skills that dont work as i SLOWLY level through all of you races (the xp is too little per kill, i must say D:)

Jareth - the ultimate doesnt work

Die Xonvert - the extra hp doesnt work. The freeze doesnt work (as far as i can tell, might just of not happened for me because the chance is too low)

Panorama - The wall climb skill, on level 2 you can climb higher objects then on level 3? E.g. anticamper map, on level 2 you can walk up the glass walls, when its level 3 you cant. Not sure about level 4 because i got bored of the race and unlocked a new one i wanted to try 🤔

I will keep you updated if i noticed anything else 🤔
