_____

That tag system only works if it's infront of your name like [twk] or [UK], not with the tag from counterstrike itself.

_____

Your clan tag needs a distinctive character, like ([- in order to be processed as tag by hlstats.

so it wont work with the tag of css itself you have to put it in front of your name right ?

You have to make a group, and then go to Options - Multiplayer - Advanced. then u have to choose that tag in the Clan Tag ☺

_____

Yo

as stated above

you need to assign a group in your steam account and add other team memebers

(mines HC Harker Clan, its my family my 2 sons and myself)

add clan tag within [] anywhere in your name (mines at the end) Shoot Me,100 Proof [HC]

in steam itself, multiplayer advanced (your tag should be in the dropdown amongst all the groups you belong too)but not needed to show up in stats only to show within game

as you can see(depending on how many memebers have played on that server) youll see your clans progress

Rank	Clan	Tag	Avg. Points	Members	Activity Connection Time	Kills	Deaths	K:D
1	DK	(DK)	18,832	2	10d 17:51:22h	48,098	44,401	1.08
2	HC	[HC]	16,918	2	4d 15:35:34h	13,738	12,963	1.06
3	MHR	[MHR]	10,676	2	7d 17:07:10h	34,012	30,629	1.11

Hope this is what you are after

Cheers
