

Another Hacker Maybe? :o

Posted by Nemx - 18 Mar 2012 01:57

Hey guys as you can tell by my subject i wasnt to sure about this guy, i have made a recording again of him and i have got his steam id, i will send the video to substick i guess when he is online because i cant attach it -.-.

Personally i think he might be wall hacking and/or no recoil on his weapon

If your wondering why i had to play myself this was because he stopped at the start when i said 'brb going for a piss'

Obviously i could be wrong, but thats why i have put it here. Thanks.

Well, you could just upload the demo to Mediafire and post the link to it here 🙄

It seems to not work for him last time 🙄
I'll just get him to send me it through skype again 🙄

I can't see anything obvious in the demo but I do get the feeling he has no recoil with some bits in that. At the end I feel he is faking recoil but I don't know. Someone else will need to look at it and confirm.

Yeah, that's unlikely to be a hack, there wasn't enough gameplay, and his recoil looked normal. he just wallbanged the door vs bots, as bots always rush the door ^^ its normal.

uhmmmmm hi?

funny i just looked at your website for fun and saw this 🙄

we'll, i can't be using no recoil since the only type of hack where no recoil won't shake is a server side hack and i doubt that i have that on your wcs server ...

but mehh i can stop playing there if you want it like that.

just a little feedback

This is why these issues should not be posted on the forum, and taken up with an admin directly. So innocent players are not offended.

actually i wasnt offended i began to laugh ;b

but if ppl think i hack and stuff it just aint fun playing you know?
