

WCS Admins

Posted by Psycho - 24 Apr 2010 22:18

Hey,

I play on the WCS server almost daily and I am finding more and more people on the server are being rude and Abusive both to myself and to others. Is it possible for me to have the ability to kick people from the server who are being abusive and rude?

I am only asking for limited admin because whenever these people are on, there are no admin online that I can call on to come and Kick them off the server?

jow just add me ^^ brampje was my steam name otherwise just add Aru_Azif

and just drop a pm and chance are likely that i will pop on the server

and sort things out.
