

Opinions on the New CS:S Update please :)

Posted by Lovin - 24 Jun 2010 14:12

Hey guys 😊

As some of you may or may not know there has been a new CS:S update (i think this is like the first major one ever in the history of CS:S!!?!?! lol, but don't take my word on it) that was released yesterday evening on the 23rd June around 8:45pm.

I've played on CS:S with this new update this afternoon and although their ideas of adding the achievements and gamertag and domination and mvp and etc ... into the game seems like a great idea, but it appears as if the game isn't running as smoothly and as cleanly as it did before said update. Although it may just be me and my crappy rig 😊

Is it because of all the new content is creating lagg or something? Anyway just wondering how some of you guys are finding the update and would like to hear your opinions on it 😊

Lovin 😊

i hate the new update as for me the way to spray and hitboxes have now been altered leaving me aimless lol. i hate it and won't be playing any officials until a deathmatch server is up where i can learn to aim again.

I think i could get used to it. But it's very buggy at the moment.

Bugs i have noticed:

-Invisible people sometimes

-CTs with a T skin and vice versa

-People crouch running

-This weird thing where someone is rooted to the spot from my point of view, and i can only see them standing in the same spot when they are actually running around somewhere else (hard to explain)

-Peoples guns vibrating weirdly when speccing

overactive feet on player models

random lagspikes

pointless achivments (deathmatch sevre will ruin it tbh)

other than the lag im loving it now (hate it at 1st cos it felt weird) give it some time and think about whats going on and ul notice how much more awesome things are (reg is amazing 🤔)

The invisible and wrong skin mapping, I guess a total wipe on your data folder on the cs dir can fix a few things, like download new skins and stuff, just saying, ok.

Other stuff besides that.. mostly bugs...

I believe lots of people are working in fixes and stuff, keeps yer pants on.
