

Warcraft Server Admin

Posted by Roblackpool - 03 Dec 2010 10:32

Hi Guys

Following my "I'm back!" topic on the hello forum, thought i'd post on here and say hi.

Most of you should know me, I used to admin the Warcraft server, and helped out when the new races came out aaaages ago! I've started playing again and have been on the warcraft server most days for a few weeks. Sometimes there are issues with swearing, insults, bug abuses and some glitches which need ironing out.

Ontop of that there's a common issue with bots getting stuck in the last round of a map when not many people are online, this causes the map to stay on indefinitely, without players being allowed to join either team. If you will have me as admin I will be willing to retake my post and help clean up the TWK servers qnce more 😊

I used to be TwK - Rob, now TwK Roblackpool

Double topic??

=====

Re: wcss admin

Posted by Roblackpool - 03 Dec 2010 11:52

didn't know how many of thbe members used the css forum, a lot of the replies seemed fairly old so thought this would be my best bet, especially if a lot of the members i used to know no longer play css.

Merged the topics, I do "hate" double posts.

As for admin, a vote will be raised and discussed, keep your pants on! 😊

no worries lads 😊
Cheat on wcs server btw if any admins are online right now?

oo I noticed "server admin" in my signature - checked earlier and commands not activated yet. Has my application been approved?

And yep will do 😊
P How you doing anyway, waltz? Long time no speak!
