

Warcraft Server Admin

Posted by Roblackpool - 03 Dec 2010 10:32

Hi Guys

Following my "I'm back!" topic on the hello forum, thought i'd post on here and say hi.

Most of you should know me, I used to admin the Warcraft server, and helped out when the new races came out aaaages ago! I've started playing again and have been on the warcraft server most days for a few weeks. Sometimes there are issues with swearing, insults, bug abuses and some glitches which need ironing out.

Ontop of that there's a common issue with bots getting stuck in the last round of a map when not many people are online, this causes the map to stay on indefinitely, without players being allowed to join either team. If you will have me as admin I will be willing to retake my post and help clean up the TWK servers qnce more 🙏

I used to be TwK - Rob, now TwK Roblackpool
