

## WCS ERROR REPORT TOPIC

Posted by Pooky - 29 Dec 2010 14:42

---

**Any wcs related errors/bugs can be posted here.**

If they are fixable, we'll fix it 😊  
Otherwise we'll just have to wait for a new wcs patch

**Check Changelogs [Here](#)**

yeah, butterfree and a few others are ridiculously OP, and obv these problems only started when these races were added. maybe a rollback is in order.

**Pooky wrote:**

cheers for the feedback, not much i can do though.

For some very weird reason wcs fails bit by bit, without me or anyone else with ftp changing anything. I can reinstall the plugin...

Our wcs mod is running like 3 versions behind the newest wcs, but this latter has got it's own specific errors, that would cause more harm than the one we use now ( their weapon restrictions are totally messed up ) So i'm waiting till the wcs plugin scripters get it right 😊

\*Peace Out\*

Weapon restrictions are next to fixed. Rarely glitches out nowadays. You will have to change all the spawn cmd coding to the new restrict all weapons then unrestrict specific weapons. Might be worth looking into it seeing as all the skills work on it. We run it and havnt had a problem in days 😊

I've probs already said this but I couldn't see it 😊

The race Matrix has an ability that respawns enemies when you kill them. It freeze them and gives them 5 hp 😊  
Its like 2 extra kills everytime which is annoying D:

It will have a low chance to do it, and just means you get a double kill on the person. (can respawn more but its all to do with chance)

Yes, it is annoying when it happens to you, but other then that, its a good skill with some clever coding 😊

It doesn't have a low chance at all, it happens all the time in my opinion.

I know this is double posting but I think this needs to be addressed and I want people to notice the post 🙄

I think we should take all the new races that have been added to the server recently and just test them individually on the test server till we get them right. Pretty much every race that has recently been added is either bugged, or overpowered. It making people leave the game because of people consistently playing races with bugs or ridiculous skills etc. I just really think we need to sort this out now!

If we can't do this now then I think on the 1st of January or maybe a few days after we should reset the levels on the wcs and return it to stock and then add the races that we know work and fix the other

🙄  
if we can that is 🙄

I have been trying to get someone interested enough into wcs to replace me. But so far ( except for M3ntoz ) no one has lasted. I'm sorry for these issues, but i don't have the time anymore to look into it all.

I'll remove the pokemon races for now, see how it goes. Haven't checked wcsforums in a while, perhaps they finally got a decent update on the market.

Thanks for posting & caring

Ye I wish I could help but it with all the work I have from school and with it being such an important year for me I would rarely have time 🙄 although I might actually try and learn a bit to help 🙄  
. Thanks for replying Pooky
