WCS ERROR REPORT TOPIC

Posted by Pooky - 29 Dec 2010 14:42

_____

Any wcs related errors/bugs can be posted here.

If they are fixable, we'll fix it 😊 **Otherwise we'll just have to wait for a new wcs patch**

Check Changelogs **[Here](#)**

Infect said that it might be something to do with Wrath of Alyx Vance reappearing in the race list again but when some1 chooses it and die it says that it can't find the race in the database and the bug happens. I think that's what he meant anyway 😊

Sorry to say....

Server is once again down and out! needs restarting for the temp fix... but definately needs repairing as its ballsed up in more ways than one! lol

_____

Well what colin was describing was what happened to me a while back, and we figured out it was Wrath of Alyx. Low gravity, super speed, invincible, and everyone errors until server restart sounds the same

_____

Hmm anyway I think it could be Alyx Vance thats causing it and it shouldn't be on the server anymore anyway so we just need to remove it again.

I strongly suggest we look at a long-term solution for these problems. I say everytime the server gets worse.

1. Stop adding things until we have a fix.

2. Add things one by one and play test, and every other race to see if there are any adverse effects.

Well, I think the server is maybe past the point of no return now anyway, it's been too long since we have a fully functional server, and quite frankly we have even less players than ever before, this is seriously impacting the servers' popularity, and even I admit, it's not fun to play on any more.

I assume the races.ini was rolled back to an older version. I still strongly believe a full server reinstall is in order, and we need to take it slow, and add race by race. honestly, I know people are busy and whatever but if people have the time to break the server in the first place, surely they have the time to take a little extra care and do the process more slowly.

to bad some people have to study and don't got hours and hours to be busy with the servers.

_____

that would take quite a bit of time
if needed i can help around the summer holidays once my exams are finished and im sure a couple others have a similar situation.

_____

I spend a lot of time on anyway
so I'm sure I can help with anything that is needed.

_____

I'd try and help, but I'm not sure I'd know what I'm doing. The only server I've run is a Garry's Mod build server, so not an expert with CSS WCS

Well I finish University for the year on Friday, so I'll be fairly free until the 9th January, but obviously Christmas and New Year will take away from my time, and not seeing my mum for 4 months will make her want to spend time with me too 😉

An easy solution to this would be to appoint someone who does have the time then I guess? we're getting nowhere like this.
