

TWK Radio

Posted by PeanutAlmighty - 02 Jan 2011 22:35

Good day!

As usual, I was playing on our surf server, when I noticed in the chat box telling me to type !radioon to listen to the TWK radio.

I was all like 'ZOMG WE HAZ RADIO?' so I typed !radioon. It came up with a blank box.

HOWEVER.

People then proceeded to type !radioon and attempt to listen to the radio, and failed.

SO.

1: Did we ever have a radio station?

2: Are we going to get it running again?

3: If so, can I DJ?
