Haha, wcs does tend to do that to people 🙂

Check the motd, think BlackWaltz just made us an amazing Message of the day ! 🙂

It includes some rules.

Quick line up for wcs specificly

No wards in very small maps (like awp float) / EITHER team spawns

No nade spamming (aspecially when you're a nade race - like orc or hell hunter)

No nades / flashes on Aim maps (scoutzknives, awp maps, dealge, ak etc)

.

most likely you've seen someone using an ultimate skill. every race has a different ultimate, but you can bind it by typing "bind ultimate" to your console. for example: bind mouse5 ultimate
