

## wcs server

The wcs server kida sucks atm, mainly because of people abusing the overpowered races (you know who you are -\_-). Im finding myself playing less and less wcs because of this and if someone like me thats over lvl 1000 is put off by the abusers then you can imagine the impact it has on newcomers and could also be the main reason why the server numbers are slowly going down. Yes there are mainly at least 10 people playing during the day but they are regulars from the days when then server almost never dropped below 18-20 players. The few times ive gone on the server ive seen people (including me) leave because of overpowered race abuse.

Would appreciate it if something could be done about this (lowering the power of the races would be nice) thanks.

eg-laser light show, dmg with vagabond and vagilion, those are the only ones off the top of my head.

As long as the races are available to everyone on the server you can't say, oh stop using that race to a random player, because it's their right. So the best that you guys can do is dont abuse OP races, and keep doing what you are doing in letting us know about what races need changing.

theres the list with added stuff from reality, if those can be dialed down on the problems stated would be great, thanks. 😊

not bad but hopefully theres a way without takin races away from people 😊

mini list of op races (comment if u disagree or there are more):

Sr.eletrico (dmg) reduced multiplier slightly

vagabond (dmg) not touching this one

laserlightshow (dmg) reduced multiplier slightly

vagalion (dmg) not touching this one

MK|Sub-Zero (freezing ulti for 4 sec, dmg, and hp) hp from speedskill is removed, dmg chance is reduced for the kick. The ulti idk how to reduce the time but CD is increased to 60 sec.

obvisouly the main problem is dmg output 🤔

i feel like there is no problem with vagabond, its a scoutrace that kills the enemy with 1 shot, if ur lucky. dont know how big the chance is.

tbh i dont think vagabond is that OP it doesnt hit alot for extra damage and you also have to remember its only 1 shot that does damage its not like running around with a m4 and shooting everything to bits with 40+ damage ever hit like laser light show xD

There is a race I think is overpowered 🤔  
; Shinigami, this race has an ability that when you kill it, it has an 80% chance to to like 140 damage to the person who killed it thus killing more people since they will have less health than that. I think the damage should be decreased to something like 80 or the percentage should be decreased to liek 20-40% xD

dont even touch that race the ability proc yes it should be decreased but damage should stay the same its simple coz that is basicly the only usefull ability the race has otherwise its pretty much useless

Omg Substick I remeber that race. I died from it like every single time and once a while after so many deads I survive it. But it's really has to be decreased and badly. Was very annoying and OP. Either proc or dmg has to be decreased cause dieing every round when you kill the guy is insanly stupid and annoying. But don't want it removed since every race should have their special fun stuff 🤔
