

Css skins?

Posted by iNaZz - 15 Jul 2011 16:30

I want new skins, i tried using FBSBanana ages ago? but was soo confused?

Whats the best website now to use?

gamebanana its easy 😊
look for a nice skin you want go into your Cdrive/program files/steam/steamapps/your acc name
here/counterstrike source/cstrike just drop the files in there and should ask if you want to merge the
folders together (also make sure you back up your cstrike folder 😊
, and always check whats inside the files you download if its just seperate folders or the complete cstrike
folder so you keep the original) 😊

P.S , im about to make a video of all the skins i got coz i got quite a few and some might be interested so
keep a eye out for that should have it on youtube and on the forums by tonight 😊
