So, good turn out tonight for a practice session.

Unlucky about your ping FRANTiCz XD

and Penguin couldnt rejoin for some reason 🐼

and Scathe, you need to get your rates sorted 🐼

Anyone is welcome to practice again tomorrow. This time it will hopefully be TWK vs NBP. Just a friendly though.

I realised that the TWK interest is higher then 1 team though, so maybe get a team A and team B going? I do want to play too you see 🐼

LoL dont make an excuse about my rates... They are perfectly fine! I wa actually playing handicapped with a mouse that spins me round and faces me in completely opposite directions periodically, buttons on my mouse that when i tap they either double or tripple tap instead of being single. Then my pc is on the fritz, feels like im playing css with a pc which doesnt have the specs to play it at the minute... think i have hardware issues 🐼

It was good though, i did enjoy it... that was my first pcw in 9-10 years.

Well Subby.... I did say that due to my current situation, I would fill in if i was needed as a standby. Also cant use custom skins on there, which made things interesting.... find it well hard to see normal skins due to bein colorblind.

Things went quite well though.... considering... Ultimates didnt work mind...

Ultimates never worked for you scathe cause you were undead and you didnt put any levels in suicide bomber, which only occurs when you die, which wasnt often because you didnt register a hit! (you were blind at short a one point, i stood next to you, shot 7 shots into your head, you turn round to shoot me and kill me....)

Ill keep people updated on when the actualy league will start (we need to get more clans involved tbh) and when another practice session will be. We could of had one tonight, but i was too busy getting drunk to organise it XD. My fault, sorry guys. Next time i should be on for a game will be Sunday probably. Feel free to add Predz (if any of you had his steam account in the "view players from previous games";) and sort something out with him.

Ill give him a link to TWK and get him to sort stuff out with you

Till then, peace out, and get some practice in with the classic races! Like i have been doing :3

Lol player3 dont think anyone blinded me accept from a team flash early on in bs b. I also had 2 or 3 points in my ultimate cheers mate :p obviously... if I had none in there I wouldn't expect it to work n wouldn't av said anything lol 😊

Think reality also had problems with ultimates....

For practice though it was all good 😊
