Re: WCSLeague Posted by Player3 - 29 Oct 2011 15:08
Its a % chance remember for ultimate, and a small range.
It is also blocked by necklace
As for having points in your ultimate, when i happened to playerinfo you, you didnt [©]
I also remember distinctly blinding you at short A, you were facing the wall, i shot you with 7 hits (i checked console) and you then recovered, turned, and bang i was dead ⁹
Re: WCSLeague Posted by Scathe - 29 Oct 2011 15:20
Far as im aware the undead ulti is 100% on death. Makes a noise when u blow up to so would have noticed it even if it was working. Ended up resetting my skills and reassigning, no bother though main thing is that people had fun, and i enjoyed it!
Ahh i remember what your on about at short a now but i was facing wall due to my mouse spazzing out not due to being blind. At which point i did correct it as quickly as possible, but remember whenever i shoot you as undead i leech alot of hp mate otherwise I have no idea!! not as if I can "fix" things to make me completely invulnerable eh

Well im at work most of the day Sunday so prob not be about for a game anyways, seeing as you seem to have a gripe about not killing me!! Which btw... Hi, Im Scathe! renowned for being a real bugger to kill in any version of css, and the cause of huge giggles toiled with much frustration ⁹

Your mates need to get more players involved to me thinks, depends if you wanna play with us or against us :p hehe
Re: WCSLeague Posted by Player3 - 29 Oct 2011 18:04
Well, i dont think its 100%, or its not damaging enough to kill someone on alot of hp until near maxed.
True that, mp5 + vampire + orb of frost = pretty much unstoppable
Its what i did last time i played the league, but this time i decided to try out human, and it obviously wasnt as good •
I want to play with, but I'm not really an official member of TWK am i? And you seem to have alot wanting to play D:
