

eL_V.Per's Topic...

Hi I've been playing on your gungame server and I love it 🤔
. I was wondering if you need an admin for the server?

I have experience as admin on 4 servers, 3 of them were rpgmod the other 1 was zombie mod. I'm on alot. I'm capable of expressing myself in 4 different languages: English, Dutch, French and German. But I tend to make rather many spelling mistakes when typing German and French but people seem to understand me 😊
. I'm 19 years old, I live in Belgium -> thats why I speak 4 languages.

Steam name: eL_v.per

STEAM_0:1:14009484

In game name: eL_V.Per (was eL_V.Per - ?@????\$ but doesn't seem to work after css update)

Hummm i duno... U kind of spam the forums :/

He also keeps them active! Theres a reason this thread is popular 😊

If we'd all prefer we can call a thread after me, and give me all the attention, i wont mind people, really i can handle any amount of praise

Haha xD

They told me to be active on forums but there aren't alot of recent threads to reply on. And I don't know anything about for example football so I kinda post here alot 😊

Lol I'm already admin, didn't know it. I had tried admin in console but that doesn't seem to work. Today I accidentally pressed bound buttons from when I was admin on an rpg-surf server. So only !admin in chat seems to work to get admin menu. Anyway thanks, I didn't need my admin power yet but you never know it might be needed.

Another noob admin bites tha dusta 🤡

Haha xD

It has been a while since I used admin. The last time I was admin was over 12 months ago 🤡

I think I'm going to retire now or within some days. I usually don't play a game for a long time so I'll probably gonna stop soon. I'm nr1 on the dmgg server with quite a big gap between me and the 2nd so I've achieved what I wanted: be the nr1 on a gungame server. It was fun playing on the server.
