Hi everyone. I know why I've be banned from this server and I'm so sorry but I think it's much. Yes I know I'm use serpents exaggerated in a map where it's not allowed, I use it for Ranth use deagle and kill me and I say ok when you use deagle I'm use serpents.It's the first time when I received ban(no warning, no ban) and I believe that is a big ban 4 am I do(permanent ban), Sorry I don't use it never. I like to play in TWK server. Please unban me

I know wards aren't allowed on deagle map and I know blaze also knows the rules.

He's very active and i bet he just had a stupid moment, he deserves a punishment in some way but isn't permanent banned a bit too much?

edit: With the information from den, i understand the ban and it's ok for me.

Srry blaze but rules are rules

I was there when it happened, and I agree with the ban! I dont think it was unfair at all. Ranth used the Deagle one round, and then he stopped. Blaze used wards for over 10 rounds in the other teams spawn which is not allowed. Now, every1 on the server told blaze to stop with the wards in spawn, and we also tried to votekick him, but failed because there weren't enough votes. I believe NEZ was the one that called Pooky and when Pooky came, blaze continued using wards, and im pretty sure that blaze knew that Pooky is admin. So Pooky banned him for the wards in the other teams spawn and I feel like he took the right decision by perm ban. Pooky also said he don't need ppl like blaze on the server because he makes the players leave by using wards in spawn. map: scoutzknivez_vc2_snow

But that was not the first time, that blaze didn't resepect the rules. Most times he stopped, when i told him, but a few times, he continued. And after the information of den, it's ok in my opinion.
