Title says it all, somehow " [Fresh](#) " is able to use guns while using this race which is restriced to knives. I and other people asked him to stop before and after the demo, he did not.

Yeah, the wcsadmins are aware of this issue, due to the update, knife restrictions have been removed and i'm sure as soon as a new update which allows restrictions to be applied, they will be replaced.

We can't do much at the moment about it, except ask people don't abuse it :/ But if an admin is on, they will enforce it 😊
Or you can add admins to your friends list 😊

Ah I see. Is it not possible to just disable the knife races until a patch comes along?

People need them to level, but Fresh has been dealt with 😊
