i doubt you will be able to get admin just like that, tell us something about yourself and honestly if you havntp played the minecraft server yet i doubt youll make a chance 😊

Also this is posted in the wrong section if its minecraft related please post it here www.twkgaming.com/forum/200-general-discussion.html

P.S : please read the sections and threads next time before you post 😊

Ehm, hello, an introduction would be nice, first post an introduction, then be active on the forum and on the servers as I have never seen you on either the mine craft, the forums or the CSS servers.. so far we know nothing about you and I think you need to chat a bit before you request admin...

As a admin on the minecraft server I can answer your question and its NO!

Why? Because only a committed member can become admin.

But Im sure when you asked to become admin you meant that you wanted build rights. But this section of the forums is not where you ask for build rights so it will go unheard of.

Go here and try again(if its build rights you want): www.twkgaming.com/forum/200-general-disc...access-requests.html

Do you think you can come to our community, completely unknown, one post, no avatar, no server joining and ask for admin rights???

Selected admins on the MC bust theirs asses off for having it, now I even have a bit of trouble of adding you into the users with build rights.
