

Selling your WC Mod?

Posted by Syntex - 04 Nov 2011 16:53

So, ive played here for a while now hence i asked myself if you're giving your wc mod away , maybe even sell it. The point is, ive been searching wcmmod's all over the net, but theres no mod that is as unbuggy as yours. And since im going to open my own server i was hoping for an unbuggy mod.

Greetings, Syntex.

I doubt it's going to be sold or given away knowing how much time and effort has been put into the mod in fixing bugs and making new races. but i am not the one you need to talk to so we'll see 😊

Thanks for your reply. Just a hint: We're not gonna try to rival your server in any way, the main purpose is to have fun with a few friends. To show our gratitude to you, we would like to refer to your server by using banners. We wouldnt use the mod for commercial purposes. All in all youd benefit by selling it to us, but in the end its up to you.

Sincerely, Syntex.

P.S. : Who is responsible for that decision?

Heya Syntex.

I'm the person who's been doing the main wcs scripting for the last 2 years for TWK.

Now I'm not really sure what you are looking for ? Are you looking for a WCS plugin or the Races/effects themselves ? Because the plugin is publically available on the following forum : warcraft-source.com/board/index.php

The content of the plugin (error fixes, effects & races) are partially scripted by me and as far as I know not for sale.

I am nevertheless here for ya if you have any urgent questions/issues involving wcs.

Stick around and have fun on our servers

Pooky

So you basically downloaded the file and scripted the races, error fixes etc all yourself ?....

Which scripting language is needed to do so ? 🤖

Anyway thanks for your help.

On that forum you find the wcs mod in it's latest version, scripted in python + another custom made scripting language.

I fixed some common appearing buggs & fixed/edited/made races yes. There are quite a few races on those forums aswell, but most of them are broken/overpowered or incomplete.
