

Grunt skin

Could we please take the grunt skin off the servers?

The head of the skin isn't in the same place as the head of a player which gets really annoying on wcs and gg.

I agree, the skins are cool looking and all but the skin doesn't match the hitboxes and its quite irritating.

Yeah, I noticed that too, and when it's in the list I'm always tempted to use it because it's an awesome name, yet it's kinda unfair
