Admin App

Posted by anubis - 29 May 2009 10:23

_____

I know most of TWK don't even know me so you will ignore this application so it'd be greatly appreciated if you accept this request.

I am Anubis and I hope you will consider giving me admin responsibilities on the warcraft server because i am on the server ALOT.

It is in my intention to make the server to be alot more enjoyable without people using bugs to get others annoyed and make them leave. I get along well and i'm friendly.

 I want to reduce the ammount of glitch use and ignorance to the rules(which i see quit alot) and i will not abuse.

In doing this i want to get the server looking more enjoyable and more popular and i will not use my powers unless it is absolutely needed.

I have a vast knowledge of wcs races,maps and items and i am very experienced.

I thank you for using your time to read this.

Oh and do you think a wcs mario map would be good? i'm thinking of making one for twk

_____

Hello Anubis,

Thank you for your interest in helping out with the WCS server.

We will get back to you shortly regarding that.

As for the mario theme map I think it could work out as it would certainly be different.

We would love to see a map made by you for the server

_____

I've finished the map but how do i send it? (note: this is the first complete map i've made so i doubt it'll be absolutely exquisitely perfect).

_____

Send it to me

mailto:

This e-mail address is being protected from spambots. You need JavaScript enabled to view it

You can send me the bsp first and if you want send me the 2 files from hammer too

I can help you out in optimizing it and some tips on some stuff too

Dont worry, everyone needs to start sometime and practise makes perfect
