

## Maps for DM

The Pistols Only DM server fills up quickly on glass\_war and when it changes map, quite often, it empties, depending on the map.

We need some suggestions for maps that are similar to glass\_war. ie. fun to play, as this seems to be what is required as opposed to the more \*skill\* based aim maps.

Or ofc, any maps that are already on that you don't think work on the server.

Please post ideas here 😊

aim\_ag\_texture2 is fun to play plus it also popular.
