

Wcs

Posted by Mr. Skrawny - 09 Sep 2009 00:03

As i have already mentioned in my very first post i am a regular on the WCS server and there are some things that really annoy me about the server.

The biggest of these things is some of the people themselves, im not talking about there personalities, its that they constantly use races on certain maps that alot of the other players get annoyed at. For instance a person on the map scoutsknives would get a race that spawns an automatic gun or use an max out a certain overpowered race like ghost and continuously use it to a stage where they never change it.

Now i know a lot of the twk members don't play the wcs server but it is a very popular server and the request i would like to make is more regular admins, i know vapour is quite regular but he's not there all the time and this problem may not sound annoying but i have raged quitted and a lot of others have just for the amount of people that do these types of things.

I hope u consider this request and i would like to hear ur responses

Thanks

Mr. Skrawny

Great with more admins!

I have played alot on the wcs server and I'm on almost everyday for at least an hour. If it is possible I'd like to have the watcher status too to be able to kick those that destroy the gaming experience for everyone.

Imo you wouldn't get it in another 10 years simply because you act like your so nice

but then why did i just ban you for warding spawns ?

would that mean you would kick yourself ? for destroying the gaming experience ?!

I've never seen Demonic do anything wrong and he's one of the people who usually tells me when people are doing anything wrong and i've never had any complaints about him.

So, was reading through old threads, and I'm just wondering if the "watcher" status is still active?

I still wanna help out and I'm gonna be on about 2-3 hours a day.

Well now that Tunes mentioned this (we were sorting it but he has mind powers to see the future... 😊)
Mr. Scrawny, Mo and Risky will have Server watcher status.

Like mentioned above they will have some admin rights, but wont be able to ban. This will still have to be done by one of our main admins.

They will be able to mute, kick and generally do stuff to keep the server more "in control";

If all goes well they may be promoted to Server Admin status.

GZ guys :->
