

Admin application (SURF-DM)

Posted by iScream - 24 Dec 2009 10:14

Let me introduce myself first... 🇧🇪

I am iScream, I'm 16 years old, I'm from Belgium and I love playing CS:S.

I used to be MID+ but now I'm MID/MID-.

I'm ranked 15th of the 4000 players on the SURF-DM server.

And I really think you need an admin to take care of the server.

You might also know my brother, Roger, who is very active on the WC3 server.

Why does the server need me?

Well, the guy who's ranked first used hacks to get there.

(Really obvious ones, spinbot, aimbot, wallhack, etc.)

You can't voteban him (more votes required then there are players) and there never is an admin online.

I also think the server isn't active enough and I want to change that!

The only thing the server needs is a good admin!

Let me know what you think.

Give it more than a day lol

Admin powers are not something we just give out willy nilly - we take our time to carefully consider each application first before we make a decision!

I know. 😊

But it would be nice if you would add me.

So you can contact me whenever you want and you can join me whenever you want to see how I'm like in-game. 😊

Believe me mate, if any of us would enter the server to watch you play, it would be a test (undercover, nag you all time and stuff 😊) rather than a sit on the bench.

With great power comes great responsibility.

We welcome all admin requests, but as said before, they are all well looked into!

I know, but you need to add me anyway to join me so it doesn't really matters. xD

But don't worry, I'll be patient.

Ranked 11th now but I can't play for about a week, I'm on vacation then. 😊

Your ranking isn't really a good argument on fun servers such as surf server 😊

But it is true that we have barely any admins currently playing the Twk-Surf server, so thanks for the application.

Since it's Christmas, quite a busy period, you will have to stay with us and wait a bit 😊
It will be looked into in due time.

Regards
