

Admin application (SURF-DM)

Posted by iScream - 24 Dec 2009 10:14

Let me introduce myself first... 🇧🇪

I am iScream, I'm 16 years old, I'm from Belgium and I love playing CS:S.

I used to be MID+ but now I'm MID/MID-.

I'm ranked 15th of the 4000 players on the SURF-DM server.

And I really think you need an admin to take care of the server.

You might also know my brother, Roger, who is very active on the WC3 server.

Why does the server need me?

Well, the guy who's ranked first used hacks to get there.

(Really obvious ones, spinbot, aimbot, wallhack, etc.)

You can't voteban him (more votes required then there are players) and there never is an admin online.

I also think the server isn't active enough and I want to change that!

The only thing the server needs is a good admin!

Let me know what you think.

in few days u can even tell u had to wait till next year before ur application was looked at ^^

Lol, now I can. 😊

I'm back from vacation, happy hollidays to all of you! 😊

EDIT:

@ Pooky: I know my rating isn't that important but it does proof I'm active on the server. 😊

Give us just a little more time - we are looking at a few things at the moment to do with the server setups.

Hi iScream,

I sent you a PM on the 8th with some info - wasn't sure if you were still playing atm as not managed to catch up with you - I've been struggling to find time myself to get on the servers 😊

PM me back and will proceed from there.

DS.

Oh, I didn't see that. 😊

I've sent you a reply.
