

Skill Surf Joinsound

Ahoy!

I think "Fort Minor - Remember the Name" would be an awesome joinsound for the skill surf server coz the chorus kinda fits to the "skill surf - feeling".. 😊

Uploaded the beginning of a sweet lil remix for you -> www.esnips.com/doc/f7c23d40-e072-48d1-b4...c/joinsound:s24sq920

what do you think? =p

I've uploaded this but I chopped off the start very slightly to make sure it all gets played - please let me know if not working.

I've noticed the server keeps going offline - any idea if this is related to specific maps etc?

I looked into the admin chat tonight - it's very strange.

I've double-checked the admin database and SB stuff and can't see any issues. Do you have access to the admin menu etc? Is it literally just the chat not working? I wonder if it's something in the surf-config interfering with it?
