

Skill Surf Server

Posted by Yamaan - 23 Oct 2010 12:18

I think it would even be better if:

alltalk was on and

flashlight worked.

I don't see why they couldn't.

It's good that rtv and nominate works 😊

OK flashlight was off due to a steam bug with the OB originally, but should be sorted now.

I have enabled flashlight and seems to me alltalk is on? at least the server var is on.

Cheers for the comments 😊
