wcs rtv enabling changing to 4 players
Posted by NightMare - 29 Nov 2010 21:35

_____

could it be possible to change enabling the rtv command to 4 players because sometimes we cant change the map when we dont like the map anymore.

_____

I've never been a fan of rtv on that server, does my head in. Sometimes the map can change 3 or 4 times in like 5 minutes.

_____

5 mins? I remember there being just 3 people on the gg server and I had to kick one of them as he constantly rtv'ed no matter what map it was, and when there were only 3 people on it allowed 1 person to make the vote work! He did it 9 times over the course of a few minutes before I got fed up and kicked him (warned him plenty too)

I don't mind rtv to a certain extent, and being an admin I don't rtv unless the majority want a map change (in which case rtv would enable anyway) or say 7 out of 16 players want it changed. but when it get's to the point where people rtv at the start of every single map... I feel that they shouldn't have the right at those times tbh
