

Abuse

I like playing on you wcs server BUT

There are some people that belong to your community that seem to noob around some.

Some of them only pick the most overpowered highest lvl'd race they have.

Not much u can do about that.

BUT that an ADMIN of your server actually abuses a way so he's completely invisible is one step too far for me!

I'm talking about Rob, I checked what race he was cuz it could be that.

He was human alliance so he should still be pretty visible.

I checked if i could do the same with shopmenu but the shadow cloak was blocked for that race.

So he must have some kind of right that he can use it or some bug exploit, either way if someone like that is wearing your tag and just abuses bugs....

After that i got kicked by him for calling him a noob... which he is considering he's using a lame bug.

I think there should be done something about it

Sincerely, Innocent

Thanks for all the replies with suggestions and stuff..

No I didn't have demo's because i was kicked whilst still figuring out how he did that.

Rob himself wouldn't answer so after some time asking I got angry.

Then my appologies to you Rob.

You could've also just told me instead of ignoring me.

And about the Vagabond, I also see that happening a lot..

Also thanks to you Pooky for the great response, always respected you.

(I've played for some time on the WCS with Aru_Azif, Might have called myself s0ap in that time.)

And to all others thanks again for the great replies, I understand now.

Thanks innocent although the reporting of this may of not been a correct one this time, please report any abuse of any kind and if you have any suggestions on how our servers can be improved we'd like to hear them 😊

If you read my post innocent, I already advised that I had responded numerous times advising that it was my choice of model which made me appear more invisible. Again, don't see any benefit in further

responses to this
